Animal Medical Center Welcomes 55th Intern Class at Annual White Coat Ceremony

25 Veterinary Interns Selected from 250 Applications, Will Train Across 17 Specialties in Prestigious Program

(June 18, 2018 – New York, N.Y.) Animal Medical Center (AMC) hosted its 10th Annual White Coat Ceremony today, welcoming a new class of interns. The internship program, now in its 55th year, is among the most respected in veterinary medicine.

The 25 veterinarians from across the country were presented with an AMC White Coat from Chief Executive Officer Kathryn Coyne, symbolizing their new role as a doctor at the Animal Medical Center. Bruce W. Keene, DVM, MSc, DACVIM (Cardiology), Professor of Cardiology, Jane Lewis Seaks Distinguished Professor of Companion Animal Medicine, Department of Clinical Sciences at North Carolina State University College of Veterinary Medicine, was the featured speaker.

“As the world’s largest non-profit veterinary teaching hospital, each year the White Coat Ceremony renews our commitment to providing the highest quality specialty education and training available in veterinary medicine,” said Coyne. “Wearing the AMC white coat should be a reminder to all interns that they are now part of AMC’s 108-year legacy, and with that comes a great responsibility to learn as much as they can while training at AMC.”

“I’m honored and delighted to speak at the White Coat ceremony for an incoming intern class,” said Dr. Keene. “The AMC experience, and with it, admission to the extended family of AMC alumni, has been among the most rewarding parts of my career. The opportunity to work alongside and learn from the AMC faculty and staff is something that will shape the practice and careers of these elite veterinary graduates for the rest of their lives.”

Trustees and donors who generously support The Institute for Postgraduate Education attended the ceremony. These supporters are essential to helping further AMC’s mission of advancing veterinary education.

AMC is proud to introduce its 2019 Intern Class:

- Dr. Bryan Artemis - Ross University School of Veterinary Medicine
- Dr. Daniel Cimino - Cornell University College of Veterinary Medicine
- Dr. Heather Corbin – University of California, Davis School of Veterinary Medicine
